

MATH CURRICULUM PATHWAYS

SEQUENCE

Students are placed into courses where they will be appropriately challenged and, based on our expertise, will have the best possible mathematics experience. In some cases, with the permission of the department chair, the pathway may differ from above to best meet the needs of a student. This may require additional summer study.

ECONOMICS

Each of the following courses are one-term electives and may be taken independently of one another.

- Microeconomics (Fall)
- Macroeconomics (Winter)
- Finance (Spring)

NOTES

- All courses are full year except for electives.
- Roughly, the higher a course appears on this page, the more challenging it is. All courses above the bottom row *and* all AP courses require departmental permission.
- See the Course of Studies for detailed prerequisites and co-requisites.
- Graduation requirement is one full course beyond MPS2.
